

Career and College Promise

Description:

Success in today's global economy may require a two-or four-year degree, a diploma or certificate. Through Career & College Promise (CCP) qualified high school-age students in North Carolina have the opportunity to pursue these options, tuition free, while they are in high school, allowing them to get a jumpstart on their workplace and college preparation.

CCP provides three pathways to help advance eligible students' post-high school success:

- College Transfer – College transfer pathways provide up to 34 hours of tuition-free course credits toward the Core RR, an agreed-upon 44 hours of college credit that will transfer seamlessly to any public or participating private college or university in North Carolina, saving successful students time and money in pursuing four-year degrees.
- Career and Technical Education (CTE) – Career and Technical Education pathways allow eligible students to earn tuition-free course credits at a JSCC toward a job certificate or diploma in a technical career field.
- Cooperative Innovative High Schools – Students attending an approved Cooperative Innovative High Schools such as Duplin Early College High School can begin earning tuition-free college credits as a high school student.
