Greetings Phi Theta Kappa members!

O’ boy! It has been an exciting year and already we are looking forward to new ideas for the future. Phi Theta Kappa’s new international honor’s study topic is "Popular Culture: Shaping and Reflecting Who We Are." We will look at popular culture from many aspects of life such as television, music, fashion, sports, literature, and more. Popular culture not only reflects who we are as a society, but it also influences who we are to become.

The 2004-2006 International Service Program is "Conquering Cancer: Continuing the Fight." This partnership with the American Cancer Society has been instrumental in the fight against cancer. We will continue to concentrate on prevention and early detection, advocacy, fundraising, and service/volunteerism.

Also, I want to remind BEX members to be sure to let Dr. Wood, the faculty, the staff, and the Board of Trustees know that we are appreciative of their continued support of Phi Theta Kappa. Beta Epsilon Chi would not have continued to be a five-star chapter without their aid.

Thank you BEX for your faith in electing me and allowing me the opportunity to serve as chapter president. We have had a great year together. We have tried to set realistic goals for our chapter, and we were successful! Even though, I have come to the end of my year as chapter president, Phi Theta Kappa will always be apart of me.

Congratulations to Lynn Outlaw, president-elect!

Tonya Pittman, President
