E **EDUCATIONAL TALENT SEARCH** serves young people in grades six through twelve. In addition to counseling, participants receive information about college admission requirements, scholarships, and various student financial aid programs. This early intervention program helps young people to better understand their educational opportunities and options. The program serves students from families where neither parent graduated from college and those students whose parent's taxable income falls within the Department of Education guidelines. A major goal of the Talent Search project is to target participants with potential for education at the post secondary level and encourage them to complete secondary school and undertake a program of post secondary education.
