James Sprunt Community College will be offering through the Continuing Education Division a Manufacturing Skills Standard Council (MSSC) Certified Production Technician (CPT) course starting Summer 2015. The CPT course provides training for national certification in four areas: Safety Awareness, Manufacturing Processes, Quality Practices, and Maintenance Awareness. Upon successful completion of each module, students will gain Certified Production Technician Certification that is recognized nation-wide.

The Continuing Education Division is looking for someone with the following qualifications to assist in putting this program in place as well as become the lead instructor for the course. The person selected will have to pass all required modules to be presented and obtain his/her CPT Certification prior to teaching the course.

Qualifications:

• Associate’s Degree in Industrial Technology or related field. Bachelor’s degree preferred.
• Extensive experience in a manufacturing environment with experience in industrial training preferred.
• One year of teaching in a classroom at postsecondary level and experience working in a manufacturing setting.
• Understand OSHA requirements and preferred certification in OSHA.

Duties/Responsibilities (but not limited to):

• Provides instruction in CPT modules.
• Participates in scheduling of events, classes and tutoring.
• Recruits students.
• Assists to identify revisions, modifications and additional equipment needed for instruction.
• Works with staff to schedule MSSC testing and retesting.
• Maintains student database of all MSSC scores.
• Collaborate with local business & industries to ensure required skills are implemented in course of instruction.
