ENROLLMENT

Enrollment will be on a first-come, first-served basis. Students should make first and second choices on their pre-registration forms. Every effort will be made to accommodate the student’s first or second choice.

Students under age 18, but at least 16 years of age, must complete a Dual Enrollment Form along with the pre-registration form to participate in this training. Individuals without proper forms or authorization will not be allowed to participate. The Dual Enrollment form can be found on the JSCC website: www.jamessprunt.edu under the Continuing Education - Fire Service tab.

No registration will be accepted or reserved over the phone!!! Please send in your registration and fees as soon as possible but no later than February 5, 2016 to guarantee your course selection.

FEE SCHEDULE

Registration Fee:

All active North Carolina Fire, Rescue, and EMS members may qualify for a fee waiver. All others must pay a $70.00 registration fee.

Association Fee:

A Conference Association fee of $20.00 per person will include a meal that will be provided on Saturday. No meal will be served on Sunday. Association Fee is required for all classes.

Please make checks/certified money orders payable and mail to:

9. **Chief 101 (NC Certification)**

The primary objective of the course is to inform current and future chief officers of the various aspects and complexities surrounding the operations and organization of North Carolina fire departments. Emphasis will be placed on ratings and inspections, NFIRS reporting, prevention and grant programs, basic line of duty death information, financial considerations, and an overview of the various expectations facing a Chief Officer. This class will satisfy the 9S insurance inspection criteria as specified by the North Carolina Administrative Code. This is a NC Fire and Rescue Commission certification course. *(Saturday Only)*.

8 Hours

10. **D/O Basic Pump Operations (NC Certification)**

This course will review and explain basic elements of pump operations including priming, lift, drafting, pumping from a hydrant, setting engine pressure and calculating friction loss. This course is a part of the NC Driver Operator - Pumps Certification approved by the NC Fire and Rescue Commission. The student must pass the end of course exam(s) to receive certification credit. **Turnout Gear is required. (Class begins Friday Night. Friday night attendance is mandatory).**

15 Hours

11. **Emergency Vehicle Driver (NC Certification)**

This course deals with the safe operation of emergency vehicles, driving skills, legal implications of emergency driving and departmental standard operating procedures. This is a NC Fire and Rescue Commission certification course. The student must pass the end of course exam(s) to receive certification credit. *(Class begins Friday Night. Friday night attendance is mandatory)*.

18 Hours

12. **AHA Trio - CPR, ACLS & PALS (AHA Certification Courses)**

This course is designed to recertify Paramedics and other ALS providers to current AHA standards for Cardio-Pulmonary Resuscitation, Advanced Cardiac Life Support and Pediatric Advanced Life Support. Students that successfully complete the course will receive their AHA cards for CPR, ACLS & PALS. Cards will cost an additional $5 per card ($15 total for the trio), payable to the instructor on the first day of class. Class is limited to 16 students.

*(Class meets Saturday 8am-5pm, Sunday 8am-12pm)*

12 Hours

Course Descriptions

1. Basic Firefighting
This non-certification course is designed for the new firefighter with little or no experience. Basics to be covered include ladders, SCBA, fire streams, hose practices, etc. Practical applications will be used extensively. **Full turnout gear and SCBA with an extra cylinder required. Class begins Friday Night. Friday night attendance is mandatory.** Junior firefighters must have their chief's authorization and signature on the registration form along with a completed Dual Enrollment Form.

16 Hours

2. Foam Fire Streams (NC FF Certification)
This certification-related course will help the firefighter candidate to gain an understanding of foam generation, the types of foam, and their uses. This course is part of the NC Firefighter Certification Program approved by the NC Fire and Rescue Commission. The student must pass the end of course exam(s) to receive certification credit. **Full Turnout Gear required. (Saturday Only).**

8 Hours

3. Sprinklers (NC FF Certification)
This certification-related course will cover the various types of sprinkler systems, as well as their components and the reliability of automatic sprinkler systems. This course is part of the NC Firefighter Certification Program approved by the NC Fire and Rescue Commission. The student must pass the end of course exam(s) to receive certification credit. **Full Turnout Gear is required. (Class begins Friday Night, Friday night attendance is mandatory).**

16 Hours

4. Forcible Entry (NC FF Certification)
This certification-related course is designed to demonstrate methods of forcing entry into structures utilizing different principles and practices. This course is part of the NC Firefighter Certification Program approved by the NC Fire and Rescue Commission. The student must pass the end of course exam(s) to receive certification credit. **Full Turnout Gear is required. (Class begins Saturday morning).**

12 Hours

5. Ventilation (NC FF Certification)
This certification-related course is designed to teach the firefighter candidate different methods of performing safe and effective ventilation principles and practices. This course is part of the NC Firefighter Certification Program approved by the NC Fire and Rescue Commission. The student must pass the end of course exam(s) to receive certification credit. **Full Turnout Gear and SCBA is required. (Class begins Friday Night, Friday night attendance is mandatory).**

18 Hours

6. Orientation and Safety (NC FF Certification)
This certification-related course will enable the firefighter to become aware of the advanced operations of the department and understand their position in the organization from a more detailed perspective. Course topics will also include a review of advanced safety regulations and the firefighter’s responsibility to comply with those regulations; the elements of an advanced departmental safety program; and the advanced hazards related to fire protection. This course is part of the NC Firefighter Certification Program approved by the NC Fire and Rescue Commission. The student must pass the end of course exam(s) to receive certification credit. **Full Turnout Gear and SCBA is required. (Class begins Friday Night, Friday night attendance is mandatory).**

16 Hours

7. Portable Extinguishers (NC FF Certification)
This certification-related course is designed to cover the extinguishing characteristics of portable fire extinguishers. This course is part of the NC Firefighter Certification Program approved by the NC Fire and Rescue Commission. The student must pass the end of course exam(s) to receive certification credit. **Full Turnout Gear is required. (Saturday Only).**

8 Hours

8. Fire and Life Safety Preparedness (NC FF Certification)
This certification-related course is designed to assist the firefighter candidate in all functions of a fire and life safety program including: inspections, prevention, education, and cause determination. This course is part of the NC Firefighter Certification Program approved by the NC Fire and Rescue Commission. **(Class begins Saturday morning).**

12 Hours
